

**Date:** July 25<sup>th</sup>, 2005

**To:** Members of the UCF Board of Trustees

**Regarding:** UCF Football Stadium

We are residents of the Riverwalk subdivision in Oviedo and we are writing to you in regards to planned UCF Football Stadium.

While we are not opposed to a stadium per se, we do object to what seems to be the university's choice of site, the North East Quadrant, for the following reasons:

- there are mostly residential subdivisions in close proximity to this location which would be negatively affected by
  - traffic
  - noise
  - light

This may lead to

- decrease in quality of life
- decrease in property values

Instead, more suitable sites could be found in the Southern part of campus and we strongly urge you to consider these locations.

Advantages of a southern site are among others:

- connections to 408 and hence to major Florida highways
- more hotels, restaurants and shops
- fewer residential areas in close proximity
- in addition, it might be possible to make arrangements with businesses in the research park to utilize their parking places on weekends and evenings

We hope for your support in this matter !

Sincerely,

*Marga + Steve BOTT*
