COMMENTS:

For the parking lot at the Creative School, it would be beneficial in the redesign process to consider moving the entrance further to the left to make cut through traffic more difficult. If it is not possible in the current design underway with the additional lanes, making it possible to convert the additional parking lot north of the school to the entrance or at least make it easy to adapt in the future if needed.

COMMENTS:

\$ 9 mil NOT SUFFICIENT FOR chemistry renovation. Needs a lot
of infrastructure.
